PROFESSIONAL SUMMARY

Software engineer with three years of experience building and modernising enterprise applications in the banking sector using ASP.NET Core, C# and SQL Server. Experienced across the full delivery lifecycle requirements analysis, design, development, REST API integration, UAT and production deployment with 60+ releases delivered on business-critical systems. Working knowledge of Java, Spring Boot, and React for full-stack development, with hands-on experience in SQL and Power BI for reporting and data analysis.

TECHNICAL SKILLS

Languages: C#, Java, Python, JavaScript, SQL / T-SQL, HTML5, CSS3

Frameworks & Libraries: ASP.NET Core, ASP.NET MVC, .NET Framework, Entity Framework, REST API Development, Spring Boot, React.js, jQuery, Bootstrap, Tailwind CSS

Databases: Microsoft SQL Server, Stored Procedures, Query Optimisation, Data Modelling

Architecture & Practices: MVC, N-Tier Architecture, RESTful Services, JWT Authentication, Role-Based Access Control, Legacy Application Migration, Secure Coding (SAST remediation – XSS, path traversal), Unit Testing, Code Review

Data & BI: Power BI, DAX, Microsoft Fabric, PySpark, ETL / Data Pipelines, SCD Type 1 & 2

Tools & Methodologies: Visual Studio, Git / GitHub, Jira, Confluence, Postman, IIS, Agile, Scrum, SDLC

AI Engineering: Generative AI, Prompt Engineering, Retrieval-Augmented Generation (RAG), Model Context Protocol (MCP), Transformer-based Models

Communication: English , Hindi, Malayalam

PROFESSIONAL EXPERIENCE

HDFC Bank - Mumbai, India

Fullstack Developer -IT (Business Solution Group)

July 2023 - September 2026

- Develop and maintain 3 enterprise banking applications in ASP.NET Core, C# and SQL Server, including a recruitment workflow automation platform and the IDREAAMS document approval system used across banking operations.
- Led migration of legacy .NET Framework applications to ASP.NET Core, re-architecting the codebase and integrating budgeting, compliance, procurement and reporting modules into a unified workflow, improving page response times by 40%.
- Designed and built RESTful APIs and role-based access modules, and wrote optimised SQL Server stored procedures and queries to support high-volume approval workflows.
- Delivered 60+ production deployments, owning the full cycle from development through UAT support, defect resolution, release management and post-production support.
- Built 12+ automated notification schedulers and workflow monitoring services, eliminating manual follow-up for operations teams.
- Remediated Checkmarx security findings including stored XSS and path traversal applying input validation, output encoding and secure file-handling patterns to meet bank security standards.

KEY PROJECTS

PICS Attestation Services | Full-Stack Business Platform (Live Production)

July 2025

- Designed, developed, deployed and continue to maintain a live customer-facing platform serving 400+ customers per month, covering appointment booking, document submission, application tracking and automated notifications.
- Implemented role-based modules, workflow automation and business dashboards tracking 10 KPIs, and manage the complete lifecycle from requirements through production support.

Nivara Living | Full-Stack E-Commerce Platform**December 2025**

- Built a full-stack e-commerce platform for hotel and home linen products with shopping cart, checkout, UPI payment integration and WhatsApp order routing.
- Developed a responsive front end in JavaScript focused on a seamless mobile-first purchase flow.

Workflow Analytics & SLA Prediction | MBA Capstone**May 2026**

- Built a Decision Tree model in Python to predict SLA breaches in banking approval workflows, achieving 97.5% accuracy, and delivered a Power BI dashboard for TAT and SLA monitoring.

Retail Data Pipeline | Microsoft Fabric**July 2026**

- Built an end-to-end Medallion (Bronze – Silver – Gold) pipeline in Microsoft Fabric using PySpark, delivering Gold Delta tables and a Power BI dashboard on profitability, inventory and return rates.

EDUCATION

MBA, Business Analytics – BITS Pilani (Pilani)

| 2024 – 2026 | CGPA: 9.07/10

B.Tech, Electronics & Telecommunication – NMIMS, Mumbai | 2019 – 2023 | CGPA: 3.62/4**CERTIFICATIONS**

- Microsoft Certified: Power BI Data Analyst Associate (PL-300)
- Master Java Full Stack: React, Spring Boot, REST APIs, JPA, Security, JWT, Redux, Tailwind CSS (Udemy)
- ASP.NET Core Web API Development (Udemy)
- Microsoft Fabric Data Engineering: Real-Time Projects (Udemy)
- Machine Learning with R (Alison)
- Project Management Foundations (LinkedIn Learning)
- Google – Discover the Art of Prompting (Coursera)

PUBLICATION

- Probability of Heart Disease using Various Machine Learning Algorithms, 2023 International Conference on Advanced Computing Technologies and Applications ([ICACTA](#)), Mumbai, India.
